

# PARTY SYNK

Party/meet-ups?

But no speaker  
does **not** mean  
no music/party

Sync your  
phones up!!!  
and **ROCK**

Use websockets  
for full duplex  
connection

- Connect all devices, but how?
- Need a server to sync music, but how?
- Stream music from server or ??  
download locally at client first??

Connect over internet  
create a web app

download the music at the client side  
to reduce internet dependence

hence lag ↓ reliability ↑ user satisfaction ↑
