

PARTY SYNK

Party/meet-ups?

But no speaker
does **not** mean
no music/party

Sync your
phones up!!!
and **ROCK**

Use websockets
for full duplex
connection

- Connect all devices, but how?
- Need a server to sync music, but how?
- Stream music from server or ??
download locally at client first??

Connect over internet
create a web app

download the music at the client side
to reduce internet dependence

hence lag ↓ reliability ↑ user satisfaction ↑
